1. ENGAGEMENT STRATEGIES

The school has developed a range of strategies to promote engagement, positive behaviour and respectful relationships for all students in our school. We acknowledge that some students may need extra social, emotional or educational support at school, and that the needs of students will change over time as they grow and learn.

A summary of the universal (whole of school), targeted (year group specific) and individual engagement strategies used by our school is included below:

Universal

All staff take responsibility for all children's learning and wellbeing. Our teachers continually present a positive role model for children, having consistently high expectations. The personal relationship between the teacher and child is the foundation of learning in our school. Parents are encouraged to be involved in the school's daily programs by assisting in the classroom, participating in whole school special activity days, celebrations and other events.

Engagement strategies used:

- our school's values are incorporated into our curriculum and promoted to students, staff and parents so that they are shared and celebrated as the foundation of our school community
- high and consistent expectations of all staff, students and parents and carers
- prioritising positive relationships between staff and students, recognising the fundamental role this plays in building and sustaining student wellbeing
- creating a culture that is inclusive, engaging and supportive
- welcoming all parents/carers and being responsive to them as partners in learning
- analysing and being responsive to a range of school data such as attendance, Attitudes to School Survey, Parent Survey data, student management data and school level assessment data
- teachers utilising explicit, common and shared models of instruction (CAFÉ, Words Our Way, VCOP, Big Ideas in Number) to ensure that evidenced-based, high yield teaching practices are incorporated into all lessons
- teachers adopting a broad range of teaching and assessment approaches to effectively respond to the diverse learning styles, strengths and needs of our students
- carefully planned transition programs to support students moving into different stages of their schooling
- acknowledging positive behaviour and student achievement in the classroom, formally in school assemblies and communication to parents
- monitoring of student attendance and implementing attendance improvement strategies at a whole-school, cohort and individual level
- implementing Student Leadership programs of which the School Captains, House Captains, Peer Mediators and Student Representative Council are the main programs
- students have the opportunity to contribute to and provide feedback on decisions about school operations through the Student Representative Council, Peer Mediation and class level meetings. Students are also encouraged to speak with their teachers, Assistant Principals and Principal whenever they have any questions or concerns
- creating opportunities for cross age connections amongst students through school productions, athletics, Multi-Cultural Day events and the Buddy program
- promoting collaborative and cooperative relationships, with Lunchtime Clubs proving popular, where students can choose from computers, library, fitness and knitting clubs etc.
- students are welcome to self-refer to the Student Wellbeing Leader, Assistant Principal and Principal if they would like to discuss a particular issue or feel as they may need support of any kind. We are proud to have an 'open door' policy where students and staff are partners in learning
- engaging in school wide positive behaviour support with our staff and students, which includes programs such as:
 - The *Learning and Growing Together* Program undertaken by the whole school at the commencement of the year aims to achieve a learning community based on building positive

relationships. To have all members learn and grow together; to think about themselves as learners and to think about their relationships with others. The program involves:

- ▲ the students participating in 'Getting to Know You' activities.
 - ▲ the students outlining the reasons why they are at school.
 - ▲ the students establishing a MISSION: To make our class a happy and good place to learn well.
 - ▲ the students forming a VISION: What is a good classroom, a good student and class teacher?
 - ▲ the students exploring shared values and school community values: RESPECT, RESPONSIBILITY, EXCELLENCE and TEAMWORK.
 - ▲ the students exploring the relationships that they will build for the year.
 - ▲ the value of teamwork being reinforced.
- The ***You Can Do It!*** Program is facilitated once a week in the classrooms with a focus on a goal per term. The program's main purpose is to build character strengths by instilling values, attitudes and skills in all children, through the goals of achievement, relationships, wellbeing and social-emotional blockers. The skills taught are confidence, persistence, organisation, getting along and resilience.
 - ***Respectful Relationships*** embeds a culture of respect and equality. The program supports schools and early childhood settings to promote and model respect, positive attitudes and behaviours. This approach leads to positive impacts on students' academic outcomes, their mental health, classroom behaviour, and relationships between teachers and students.

These programs are under the umbrella of **Be You**, which provides a content framework to implement a whole learning community approach to children and young people's mental health and wellbeing. The vision of Be You is to build an education system in which every learning community is positive, inclusive and resilient – where every child, young person, staff member and family can achieve their best possible mental health. Be You provides a content framework to implement a whole learning community approach to children and young people's mental health and wellbeing.
